NAUTITALK N2R

YACHTING HEADSETS – CREW COMMUNICATION SYSTEM

Highlights

- Mesh Communication System for boating and yachting. Perfect communication on board, with other vessels or with people on shore.
- On ear, worn around the head design, comfortable with sunglasses.
- Mesh Intercom connects a near-limitless number of people without pairing.
- Noise-free transmission via the sophisticated Sena microphone sensor even with strong winds.

Communication

Mesh Intercom provides perfect connection with a near-limitless number of participants on board, on the water or on the shore:

- High-quality audio, using 2.4 GHz frequency range as Wi-Fi and Bluetooth®
- Devices are connected in a self-healing-mesh, not in a daisy chain (Bluetooth®)
- Mesh: 9 channels
- Working distance: up to 1.1 km (0.7 mi)*
- Talk time: up to 9 hours

* Can extend up to 4.4 km (2.8 mi) between a minimum of 6 users

Main Features

 Mesh Intercom™ Robust and reliable communication network

 up to 1.1 km (0.7 mi) Maximum distance operating within optimal conditions

 Firmware Update Sena Device Manager

 Mobile App Compatible with Sena Marine App

 Voice Prompts Multi-language voice prompts with 11 languages (using the Sena Marine App and Sena Device Manager)

About NAUTITALK N2R

All on the same wavelength: The **SENA NAUTITALK N2R** is a reliable communication headset specially designed for boating and yachting, especially in situations with high ambient noise, combining hearing protection and effective communication. With its over-the-head ear-muffs it offers a noise reduction rating of 28 dB.

The **NAUTITALK N2R** utilizes full-duplex technology, thereby enabling hands-free communication, so boat crews can communicate effortlessly and keep their hands free of distractions. Its microphone is specially designed to filter wind-noises. The Mesh Intercom™ allows for easy group communication in a distance up to 1.1 km (0.7 mi). Between a minimum of six users, it can cover **up to 4.4km (2.8mi)!**

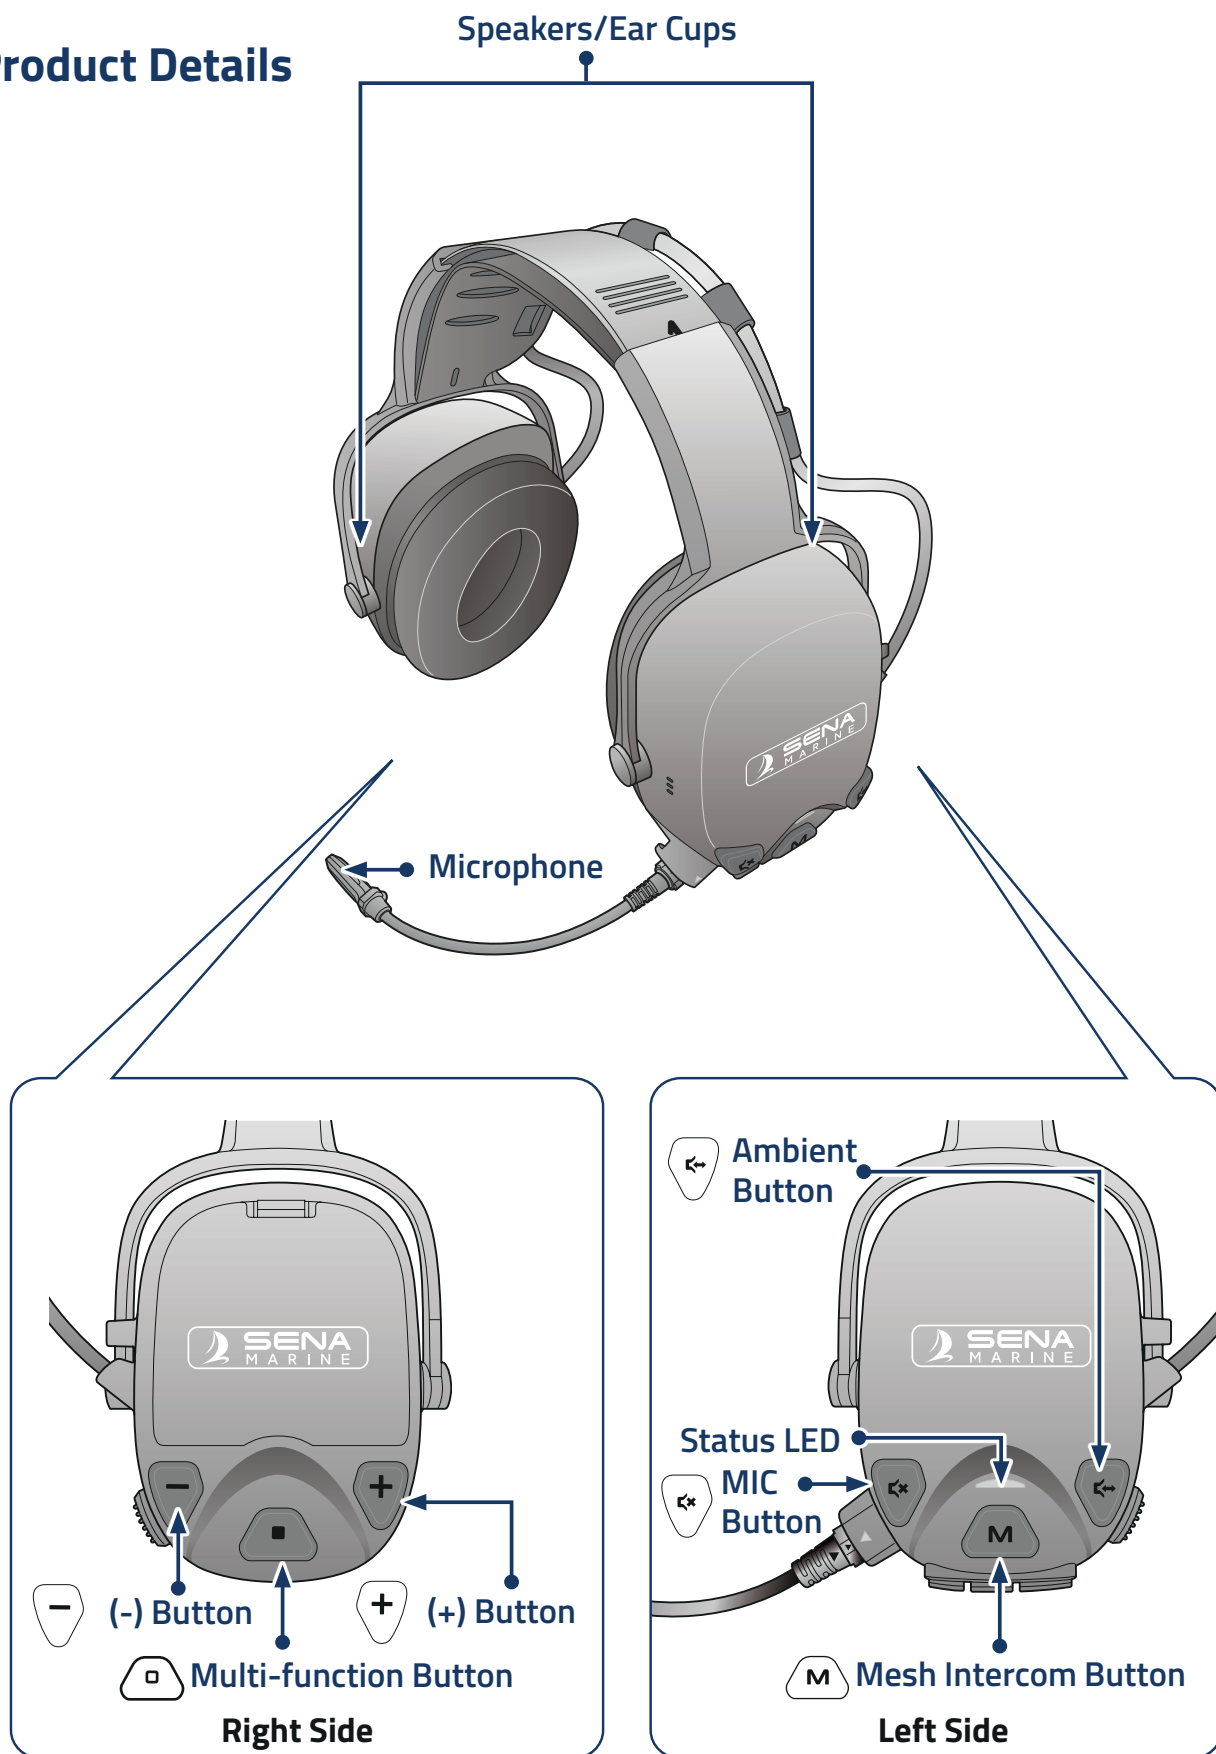

With just one click you can link multiple headsets – no pairing necessary. The Mesh independently searches for the best way to keep members connected and is self-healing – if a connection gets lost, this does not affect the rest of the crew and the device reconnects automatically as soon as possible. With Mesh, you can communicate with a near-limitless number of people all around you, on your boat, on other vessels and on land. The **NAUTITALK N2R** is also able to connect to two-way radios.

Mesh intercom uses the same 2.4 GHz frequency range as Wi-Fi and Bluetooth®, so you enjoy the same audio quality. The **NAUTITALK N2R** is worn on ear, designed to be comfortable with sunglasses.

SENA. Connecting people on their favorite adventure.

SENA is the leading innovator in the communication market for motorcycles and outdoor sports. We provide the perfect communication solution for your best outdoor experience.
